Grade 5 Reading Test - A Visit to the Planetarium

Grade 5 | Semester 1 | Grade 5A Unit 3 | Total: 10 marks

STUDENT NAME _____ CLASS _____ DATE _____

READING

10 marks

Read the text carefully. Choose the best answer for each question.

CURRICULUM FOCUS

space, places, directions, and information text

Last Thursday, Class 5A visited a planetarium in Muscat. First, the pupils sat in a dark room with a round ceiling. When the show started, stars appeared above them. The guide explained that the Moon moves around the Earth, and the Earth moves around the Sun.

After the show, the pupils looked at models of planets. Salim liked Mars because it looked red and dusty. Aisha liked Saturn because it had beautiful rings. The class also learned how astronauts live and work in space.

Before they left, the teacher gave the pupils a map of the sky. She asked them to look for the Moon and three bright stars at home. Everyone felt excited because the visit made space feel closer.

1. Where did Class 5A go?

- ◯ a supermarket
- ◯ a planetarium
- ◯ a beach

2. What appeared above the pupils?

- ◯ stars
- ◯ fish
- ◯ cars
